

Tiara

Length:	54.27 m (178.0' ft)
Beam:	11 m (36'1 ft)
Draft:	5.2 m (17'0 ft)
Built:	2004
Shipyard:	Alloy Yachts NZ
Cabins:	6
Passenger Capacity:	12
Crew:	12
Speed:	11.0 Knots

Luxury sail yacht Tiara is a fast and powerful sailing Cruising Sloop. Everything about her is world class. She has been superbly designed thought out and offers all the vast array of high tech amenities available in a current super yacht.

Tiara was designed to sail and perform on the ocean - unlike many earlier of her size - and she has excellent stability and sea handling qualities. She has a formidable carbon fiber mast of 62.5m (205'), as fitted with in boom furling, which is the maximum height capable of passing making passage through the Panama Canal. The sail inventory includes a Genoa, Jib, Staysail, MPS and a Mainsail, all made from Spectra Carbon by North Sails. They are handled by Alloy Yachts captive winches and composite furlers. Tiara is the largest luxury sailing yacht that Dubois has designed so far, and she is the largest yacht ever built in New Zealand (by the extremely well respected Alloy yachts). Her owner's apartment is on two different levels and features a study and lobby.

Tiara offers extensive and spacious deck and fly bridge areas for outdoor entertaining and activities. She features a unique and magnificent, extremely spacious, interior which has been brilliantly styled by John Munford. The aft deck is even able to accommodate the landing of a helicopter – a very rare feature indeed!

Tiara welcomes visitors with a light and easy atmosphere styled in Art Deco fashion in flamed mahogany. The interior utilizes clever and subtle use of leather, galucha, lacquer, and tasteful sculptures. Tiara's decks are large, well flowing and spacious, and there are several areas for charter guests to sunbath, relax and enjoy the cruising experience. The fly bridge area accommodates a large dining table and is fully protected from the sun by an awning. The aft deck (which is large enough for helicopter landing) leads down, with a palatial stairway, to a fold out beach area at the transom. This 'beach' creates an ideal place to access the water for a swim, board the tender for a shore excursion, or tryout the various water sports toys.

She has 5 luxurious staterooms, including an amazing owner's suite on two decks.

After her launch in 2004, Tiara has proved herself to be very a seaworthy ocean going yacht, turning heads wherever she goes! Her professional crew is ready to provide the comfort and satisfaction you deserve on one of the most impressive sailing yachts in the world.

Technical Specifications:

Fast Cruising Sloop Tiara
Lenght : 54.27m. (178.0')
Lenght on water line LWL : 44.6m. (146.4')
Beam :11m. (36.1')
Draft: 5.2m. (17.0')
DWL displacement: 449 tonnes (441.9 tons) full load
Engine: CAT 3412C (E Rated) 1044 bkW (1400bhp) @ 2300rpm
Construction Hull: Aluminium
Superstructure: Aluminium
Fuel capacity: 40,500 Lt (10,700 US gal)
Fresh water capacity : 9,960 Lt (2,630 US gal)
Shipyard : Alloy Yachts International, New Zealand
