Sunseeker Manhattan 66 yacht charter Croatia

Manhattan 66 built by Sunseeker International, represents the new breed of fast fly-bridge yachts offering the best of Sunseeker's legendary style, performance and sophistication.

She features splendid views from the upper lounge, two spacious sunloungers, large cockpit and bathing platform ideal for life outdoors. The fly-bridge area offers alfresco dining with a sun cover to shade you from the sun whilst affording excellent views of the dramatic scenery.

The extensive air-conditioned accommodation for 8 guests consists of a lounge and dining area with a fully fitted galley and bar. The interior is luxuriously appointed in leather and Black American Walnut throughout. This area is completed with a state of the art entertainment system including flat-screen television, DVD and satellite TV, surround sound, Hi-fi by Bose and the ability to zone sound and music to four separate areas of the accommodation.

The master cabin with its double-bed, dressing table, en-suite bathroom, TV and Hi-fi systems is truly a luxurious haven at sea. Additionally the double VIP stateroom, also with en-suite bathroom, offers another area of comfort and luxury and is fitted with a flat-screen TV. The guest twin cabin rounds off the accommodation for six in style as it too features an en-suite bathroom and needless to say all the cabins are air-conditioned for your comfort.

VIP cabin has almost same amenities like Master cabin with only difference in size.

A Tender is provided and fully equipped to provide a wealth of watersports frills. Diving equipment can also be carried aboard, should you require it. The Manhattan 66 is the ideal size to take full advantage of all the coves and inlets of the Adriatic Coast, helped by its generous cruising range and speed.
