### Ferretti 591 Yacht charter Croatia Dubrovnik

The Ferretti 591, built on the basis of the 590, represents a perfect balance between dimensions and performances. The yacht has a slender profile, with characteristic expansive side window structures that have rendered Ferretti Yachts recognizable throughout the world seas. The 591 is the result of the strong cooperation between Studio Zuccon International Project, who enriched the design of the super-structure & compartmentalization of interiors, and the Ferretti Engineering Division who have optimized movement and propulsion - is a perfect synthesis between design and performances. It's easy to enjoy the sea and sun aboard the 591 thanks to the large sun platform on the flybridge as well as a chaise-lounge placed alongside the piloting position. Inside the furniture are in pale oak with wengè finishing which make a refined contrast. The Ferretti 591 gives it's best in the lower deck, with two spacious double cabins, one with 2 parallel single beds, a fit-out extremely rare among boats smaller than 60 feet.

The external layout provides wide space for enjoying the sea and sun but the main novelty is in the interior, which has been totally redesigned in terms of wood finishes and upholstery.

The furniture in the galley and the cabins is in opaque oak and the light-coloured woods and sofas make the interiors extremely bright and spacious. The spacious sleeping quarters comprise two queen sized beds and another cabin with twin berths, all with private toilet, shower. The excellent performance permits the Ferretti 591 to reach 34 knots, this from a small but big jewel of the sea.

Yacht charter Croatia on board Ferretti 591 with professional skipper is guarantee for memorable nautical holidays from ACI Dubrovnik.
