Zoom Zoom Zoom

Luxury yacht charter France Sardinia Corsica Italy Mediterranean Caribbean

An outstanding addition to the world's mega-yacht fleet. She is the ultimate in luxury and style. Built for the ultimate charter experience, her vast deck space includes a Jacuzzi on the sun deck, surrounded by an extensive sunbathing area, ideal for evening parties as well. Her gracious saloons offer an unassuming elegance... She guarantees surprising space and versatility where the client will experience all the pleasure of personalizing and embellishing this jewel....

ZOOM ZOOM ZOOM can accommodate an Owner's party of twelve (10) in five spaciouly planned staterooms with en suite baths exquisitely finished in mahogany. The interior designer, Evan Marshall paid great attention to the detail creating an air of sophistication on every level. Each of the guests' staterooms are located below deck. There are three staterooms with queen king size berths, one with twin berths.

The full beam master stateroom incorporates an unusual split level design and over nine (9') feet of headroom. There is an elegant sitting area and a luxurious ensuite bath that includes a whirlpool tub and large marble shower. While dining on board, the Owner can choose the elegance of the enclosed dining room or an alfresco experience on either the air-conditioned aft exterior main deck, the aft exterior pilothouse deck or sundeck. The full beam sky lounge will allow the Owners to entertain their guests in either a formal or casual atmosphere.

A crew of nine (9) can operate efficiently and comfortably due to the design and finish of the crew accommodations on board with the accommodations available. Forward of the guest accommodations below deck are three (3) crew cabins, each with its own bath and shower, along with an engineers cabin aft and a captains cabin aft of the pilot house. A watertight door from the crews quarters to the guest staterooms provides discrete access and allows easy servicing of the staterooms for laundry and cleaning.
